

Walton Academy Charter School
Internet and Technology Acceptable Use Policy

The use of technology is vital to the implementation of the Walton Academy curriculum. However, with this opportunity comes the responsibility for appropriate use; therefore, the Walton Academy Board of Directors have adopted the following Acceptable Use Policy and procedural guidelines for accessing and using technology within the school environment.

OVERVIEW

Technology access at Walton Academy is not provided as a public access service or as a public forum. Therefore, the school has the right to place reasonable restrictions on the material accessed. Users, including all students, staff and administrators are expected to follow the rules set forth in this agreement.

While technology provides the backbone of our curriculum and educational programming at Walton Academy, it also has the potential to provide access to material that may not be considered of educational value in the context of the school setting. The school provides filters and monitoring systems which aim to eliminate the access of inappropriate materials.

It is the policy of Walton Academy to:

- a. Filter or block access to material that is not appropriate for students
- b. Protect the safety and security of students when using email, chat rooms, and other forms of direct electronic communication
- c. Prevent hacking or unauthorized access by students to data or information that they should not have access to and to prohibit other unlawful online activities by students
- d. Prevent access to websites, web or mobile applications, or software that do not protect against the disclosure, use, or dissemination of students' personal information
- e. Prohibit students from accessing social media platforms, except when expressly directed by a teacher for an educational purpose
- f. Prohibit the use of TikTok, and any successor platforms, on all school-owned devices or any device (including privately owned) connected to school-provided internet
- g. Prohibit the use of TikTok, or any successor platforms, to be used to communicate or promote the School, a school-sponsored club, an extracurricular organization, or an athletic team
- h. Comply with the Children's Internet Protection Act (CIPA) [Publ. L. No. 106-554 and 47 USC 254(h)].

EDUCATIONAL PURPOSES

1. All students will have access to technology resources within their classrooms for educational purposes.
2. The user and their parent must agree to the terms of use before being granted access to the school-provided technology. Technology access can be withdrawn at any time by either a member of the school's staff or the student's parent.
3. Students are prohibited from disclosing any personal contact information via technological means without obtaining prior consent from a School teacher or other administrative member. Additionally, the use of email, chat rooms, and other direct electronic communication by students will be monitored by the School's administration to protect the safety and security of students.

ACCEPTABLE USES

1. Technology is to be used in a responsible, efficient, ethical, and legal manner in the school environment. Users must acknowledge their understanding of this policy and the procedural guidelines as a condition of using the technology.
2. Do not retrieve, save, or display hate-based, offensive or sexually explicit material using any of the School's computer resources. I understand that I am to notify an adult immediately if by accident I encounter materials which violate appropriate use.
3. Vandalism is prohibited. This includes, but is not limited to, modifying or destroying equipment, programs, files, or settings on any computer or other technology resource.
4. Do not use computers, cell phones, personal digital devices or the Internet to send or post hate or harassing mail, make discriminatory or derogatory remarks about others, or engage in bullying, harassment, or other antisocial behaviors either at school or at home.
5. Do not access any social media platform at school, except when expressly directed by a teacher for educational purposes.
6. Do not use social media platforms on any school owned devices or while connected to school provided internet. TikTok, and any successor platform, on all school owned devices or privately owned devices connected to school provided internet are prohibited. Additionally, I will not use TikTok to communicate or promote the School, a School-sponsored club, School extracurricular organization, or School athletic team.
7. Acceptable uses of technology are activities which support learning, collaborative work, and instruction. Students are encouraged to develop uses that meet their individual needs and that take advantage of the technology's primary functions: communication, instruction, information storage and retrieval.

3. Students and teachers are particularly encouraged to share in the development of online learning activities that can be placed on our school server and made available and shared by all learners.
4. Walton Academy cannot assure the rights of privacy on school owned devices and the school administration and Board of Directors have full authority to review all actions on school networks and devices.

UNACCEPTABLE USES

Unacceptable uses of the Internet include but are not limited to the following:

1. The use of technology for non-educational purposes or purposes not instructed by the teacher is a violation of the terms of the technology policy and may result in the privilege of using technology being revoked. Social media access, including TikTok on any school owned networks or devices is prohibited by law.
2. Violating the conditions of the Code of Conduct.
3. Attempting any unauthorized access to any network or computer system.
4. Downloading inappropriate materials, i.e. files, graphics, sound clips, and/or movies.
4. Re-posting personal communications without the author's prior consent.
5. Copying commercial software in violation of copyright law or other copyright protected material.
6. Using the network for financial gain or for any commercial or illegal activity.
7. Installing or storing any software on any Walton Academy computer without the permission of the teacher or staff member responsible for the computer.
8. Making or attempting to make any changes in any configuration, password, or program on any computer or computer system without permission.
9. Using any Walton Academy computer without permission of the teacher or staff member responsible for that computer.
10. Swearing, use of vulgarities or any other inappropriate language, pictures or gestures in any form including social media, written, graphic, voice phone, and real-time video applications.
11. Attempting any unauthorized access to any computer system is illegal and will be treated as such.
12. Using technology to bully or harass another student or staff member will be punishable per the guidelines outlined in the student code of conduct. Any threats or bullying will be taken seriously.

MUTUAL RESPONSIBILITIES

1. Administrators, Teachers, School Staff, and Parents are responsible for:

- a. Providing safe technology access to students by the utilization of GoGuardian or other school internet safety software;
- b. Teaching proper techniques and standards for participation with technology;
- c. Aiding student access to appropriate usage of technology;
- d. Assuring that students understand that if they misuse technology they will lose their technology access privileges; and
- e. Monitoring related concerns including the issues of privacy, software piracy, copyright infringement, email etiquette, and the approved and intended use of technological resources.
- f. Taking appropriate disciplinary measures when students misuse technology; and insure their teachers receive the guidance and training needed to fulfill their responsibility
- g. Parents will indemnify WACS against any damage that is caused by the student's inappropriate use of the system.
